OE ON DIESEL FILTER

Historical partner of Renault as Original Equipment supplier for decades, the brand **PURFLUX** becomes the sole manufacturer of the diesel filter on all ranges of 1.5 dCi of Renault, Dacia and on models of Nissan and Mercedes.

The Original filter, FCS921, is already available on the market and **PURFLUX** is the only one to comply with the requirements of the car manufacturer.

OLD FILTER

PURFLUX FILTER

164005420R

The old filter had to be completely dismantled to change the cartridge.

The new Purflux filter is much easier to change.

- ✓ Faster and clear operation: unlike the previous version, you only have to change the complete module
- ✓ No external contamination (preservation of engine life)
