

More comfort and long service life: New MEYLE-HD transmission mount for Mercedes-Benz with carefully chosen rubber compound.

suitable for Mercedes-Benz C | CLK | CLS | E | G | S | SL | SLK (as of year of construction '89)

The new MEYLE-HD transmission mount for Mercedes-Benz combines several original versions of different models in one component. This makes the ordering process for workshops much easier. Only one part now needs to be ordered for various Mercedes-Benz vehicle models, and repair work can be executed swiftly.

The compact and fortified design of the MEYLE-HD transmission mount and the new design of rubber compound ensure a considerably longer service life. Ideal coordination of the HD part ensures that aggregate movements are restricted and vibrations better cushioned.

Overview of the convincing benefits:

- Fortified design
- Optimized rubber compound
- Improved damping properties
- Improved driving comfort
- Extremely long service life
- Versatile vehicle covering, replaces several original versions
- Simplified ordering process – swift repair
- Can be used in taxi vehicles
- 4-year warranty on all MEYLE-HD parts

**Many vehicle models,
one HD-part,
4-year warranty!**

MEYLE no. 014 024 1100/HD
Short no. MTM0081HD
